

DHL RAILEUROPE KEEPING YOUR BUSINESS ON THE RIGHT TRACK

The fast, reliable and environmentally friendly way of connecting European business centres.

DHL RAILEUROPE provides a flexible and ecological rail network to serve all major European business centres. Whether you need a single wagon, a group of wagons or a complete train – we are your partner.

Everything under control.

- We operate a Competence Centre in Sweden and terminals in Europe, to ensure your shipment gets to wherever it needs to be on a designated date
- We combine all rail logistics services to offer you customised solutions for the requirements of your business
- We charter the required capacity from independent carriers: this affords us the flexibility to negotiate competitive prices – but also to keep the level of quality under our control.

Count on us.

- We handle your shipments from pick-up through to delivery, and offer a wide range of associated services
- The experts from DHL Freight are present at all major European rail points
- Customs formalities are handled efficiently and reliably
- With DHL RAILEUROPE offices right across Europe, within the growth markets of Eastern Europe, there is always one on your doorstep

Even if your volumes are subject to seasonal fluctuations, we are flexible enough to deal with changed requirements reliably and competitively. Want to know more?

THE VALUE-ADDED INTERNATIONAL RAIL NETWORK.

Flexibility and safety are essential in today's world – and the services offered by DHL RAILEUROPE reflect this. Our network provides you with integrated supply chain management including terminal services, transport and IT solutions. To manage safety requirements, you can rely on our capabilities according to ADR regulations.

With representation throughout mainland Europe, Scandinavia and CIS (Commonwealth of Independent States), we are where you need us.

DHL RAILEUROPE: the name says it all.
